Residential Cooling System Tune-Up

Program Guidelines 2009

Sponsored By:

Nebraska Public Power District

"Always there when you need us"

And its Participating Wholesale Utility Customers

2009 Residential Cooling System Tune-Up Program Guidelines (Effective April 1, 2009)

The following guidelines will generally apply. Exceptions will be handled on a case-by-case basis.

1. Qualifying systems include - any residential central cooling system that has been installed for at least one year, such as;
 - Air conditioner
 - Air source heat pump (electric or fossil fuel back-up)
 - Water source heat pump
2. The incentive payment is \$30.
3. Homeowner is only eligible to apply for an incentive every three years (36 months).
4. The incentive payment to the homeowner will come directly from their local electric utility. For renter/landlord situations, the party responsible for the cost of the tune-up will receive the incentive.
5. All HVAC equipment must be permanently installed in a residential single-family dwelling. A mobile home must be on a permanent foundation.
6. For duplexes and condominiums that are separately metered, they will be considered residential, thus requiring two separate applications. If they are master metered, they are considered multi-family and not eligible. Apartments that are master metered, are considered multi-family.
7. In those cases where two or more air conditioners or heat pumps are installed in the same house, both or all are eligible for the full incentive amount. Each requires its own application.
8. Window air conditioners, Package Terminal Air Conditioner (PTAC), and Package Terminal Heat Pumps (PTHP's) are not eligible. Only a ducted - split system is eligible.
9. Nebraska Public Power District (NPPD) reserves the right to do random spot checks of the work performed to ensure program compliance. In situations where a customer or the dealer submits an application that is incorrect or fraudulent, NPPD has the right to cease participation for that party in programs going forward, and potentially face legal recourse.
10. Participating wholesale utility customers are those with firm wholesale contracts with NPPD.
11. NPPD will make final determination of program compliance decisions and reserves the right to cancel the program with 30 day notice. Notice posted on www.nppd.com
